✓ Weekly Summary (Short summary about what you did this week)

Continued working on project and doing research for our project. We also started our final presentation PowerPoint to present what we have accomplished in terms of our research and findings.

✓ Past week accomplishments (please describe as what was done, by whom, when)

- ❖ A: Continued research on the different PLC's
- ❖ B: Main frame for website is done, Now Uploading documents for further completion to make sure it is perfect for final review.
- ❖ C: Completing the final presentation PowerPoint with all we have accomplished

✓ Pending issues (if applicable)

- ❖ A: Whenever we ask our client questions, it's hard to get responses as quick as we would like due to their busy

schedules, so we will just have to keep continuing with our assumptions on the specifications.

✓ **Plan for coming week (please describe as what, who, when)**

- ❖ A: Continue our research and choose the best PLC we want to propose to our clients to help make sure our project continues forward.
- ❖ B: Continue to add documents and general information to the website now that it is complete
- ❖ C: Turn in the NDA forms that our client filled out.
